Introduction

Junior Frontend Developer and Software Engineering student with hands-on experience building responsive web applications using React and Next.js. Experienced in REST API integration, authentication, role-based interfaces, and full-stack development with Go, Node.js, and PostgreSQL. Comfortable collaborating in teams, using Git, and turning operational requirements into practical user experiences.

Technical Skills

- Frontend:** React, Next.js, TypeScript, JavaScript, HTML, CSS, responsive UI
- Backend:** Node.js, Express.js, Go, REST APIs, PostgreSQL, Firebase
- Tools:** Git, GitHub, Postman, Docker, JWT authentication, CRUD, API integration

Education

- Bachelor of Engineering In Software Engineering**
Mae Fah Luang University 2023- Present
Bachelor's degree in Software Engineering, focusing on software development, algorithms, and system design. Gaining hands-on experience in programming, data structures, and web technologies.
- Diploma In Computer Science**
Spring University Myanmar 2024-2025
Enrolled in a diploma program in Computer Science, deepening my understanding of computer systems, programming principles, and software engineering methodologies.

PROJECTS

- DoiTung Vanilla Product Management Platform**
Mae Fah Luang Foundation 2026
 - Developed responsive admin and staff interfaces using Next.js and React.
 - Integrated REST APIs, JWT authentication, role-based access, and PostgreSQL.
 - Built Go backend services and containerized the application using Docker.
- Book Exchange Marketplace (Backend)**
Mae Fah Luang University 2026
 - Developed a full-stack book exchange platform using Next.js, Node.js, and Express.js.
 - Built REST APIs for authentication, book listings, and exchange management with PostgreSQL integration and CRUD operations.
- SUM Club Management System**
Team GURUS 2024-2025
 - Designed a Flutter-based admin dashboard for creating and managing club activities, clubs, and events.
 - Deployed the admin dashboard on Firebase Hosting.
- Idiots Community Club Mobile App**
Double-TAC 2024-2025
 - Built a cross-platform mobile application using Flutter to manage community clubs and announcements.
 - Managed app-wide state with Riverpod, ensuring reactive and modular architecture.

Experience

- Operations Assistant (Part-Time)**
Spring University Myanmar 2023-Present
 - Assist with data management and digital tools for university operations. Work closely with the team to improve workflow efficiency.
